

ENGINEERED TO ENDURE.

Storage, handling & safety solutions for
AGRICULTURE, INDUSTRIAL & CIVIL

GET TO KNOW ADVANTAGE.

Over 25 years in the game, in a range of different sectors with the same Advantage strength.

Advantage is a family owned & operated business that was founded in 1999. We specialise in storage, handling and safety equipment across three industries – Agriculture, Industrial & Civil. The team are dedicated and quality conscious, only the best products & solutions are produced so you can enjoy the sense of satisfaction.

- NEW CALEDONIA

DELIVERED AT EVERY SCALE.

DURABILITY BY DESIGN.

All products and solutions are designed & manufactured to handle all conditions and vigorously tested to meet local and international safety standards. Engineered precision that performs year after year.

STRENGTH ACROSS SECTORS.

We deliver consistently across agricultural, civil and industrial markets with one standard of strength applied everywhere. Whether its crops, concrete or waste our products endure.

SUSTAINABILITY THROUGH LONGEVITY.

Smart, enduring designs that reduces wastes through performance. We believe the most sustainable product is the one that lasts. When products last longer, everyone wins - your business and the planet.

WHO WE'VE WORKED WITH.

From national agri co-ops to global beverage and energy brands, our client list is a reflection of products that keep performing. These are some of the businesses who put our gear to work every day.

“We have dealt with Advantage for over **20 years** and have always been very happy with their willingness to help us develop solutions to our problems. We have consistently received **excellent service**, and they have become a regular supplier for all of our moulded plastic products that we use on farm. In some cases, these products have been specifically designed to meet our requirements.”
