Custom Designs

The whole concept is manufactured here in New Zealand and with the ability of the Advantage Plastics team they can deliver to you exactly what you want, Customized framing can be designed and manufactured to the dimensions you require (within reason) to accommodate different machinery or systems etc.

"We have dealt with Advantage Plastics for over 10 years and have always been very happy with their willingness to help us develop solutions to our problems.

We have consistently received excellent service and in some cases these products have been specifically designed to meet our requirements."

Steve – Patoa Farms

FAQs

- **How much will the Smart Stakka hold?**

They will hold a capacity of 1600L, 1.2 Tonne (Wheat/Fert) or the full contents of a bulk/big bag.

- **How accurately can you control the discharge?**

With the simple slide shutter & all other outlet options the discharge can be very controllable.

- **How can I see how much product is left inside?**

There are 2 common options, sight glasses can be added or ordering them in the Natural (opaque) colour as you will be able to see the product line

- **Can the bin size be reduced?**

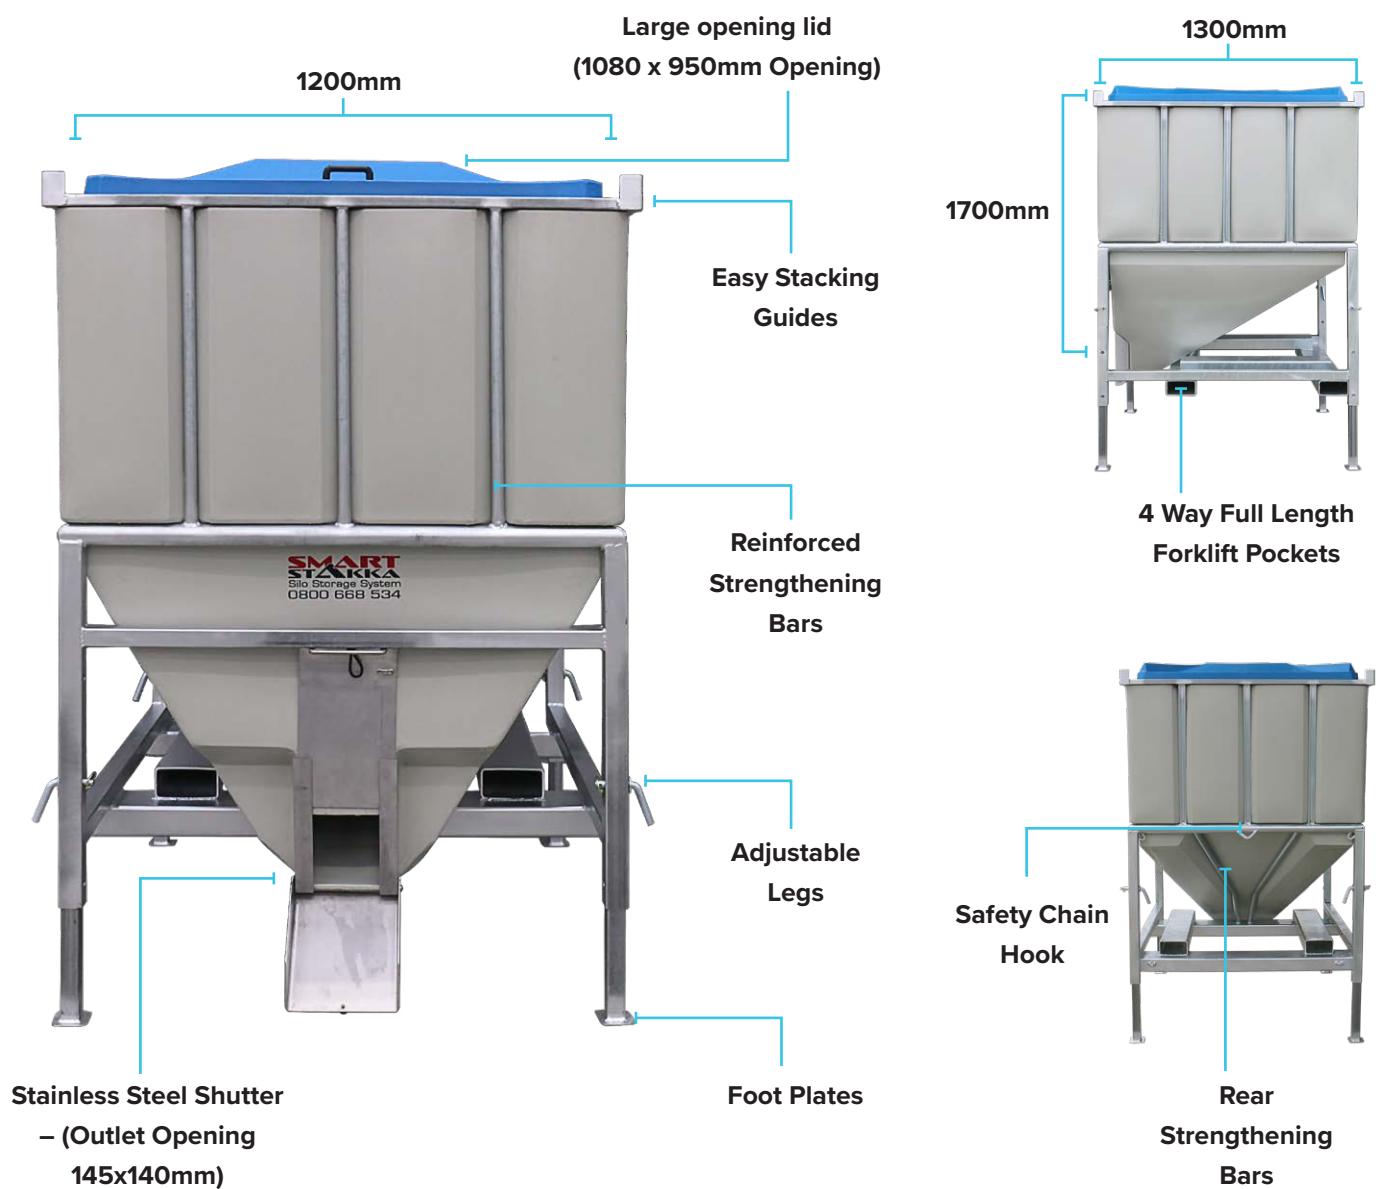

Yes this can be done and has been done but will be at an extra cost.

- **Are they safe to transport on a Ute, truck or trailer?**

Yes they are but using tie downs or straps is a must!

If you don't find an answer above or throughout this catalogue please don't hesitate to contact us, we're always happy to answer any queries you may have.
