Karting With Ease

KA10

THE TOP RIDE-ON MOWER TRAILER ON THE MARKET!

Are you sick of job taking so long to do?

The KA10 trailer will make life much easier for you, it's passionate about karting all sorts with ease, so all the goodness has come in one.

It is built to very high standards with quality not many can match. It is very strong, robust and fully UV stabilised so can handle all the conditions Mother Nature happens to throw at it. With a very good capacity of 10 cu.ft, no sharp edges, nice sloping back for easy discharge this kart has it all!

Make your job an ease and life easier with a kart-a-way trailer KA10.

Colour Options:

- Red
- Orange
- Black
- Dark & Light Green
- Yellow

Max Speed:

- 13km/h

Max Load:

- 170kg

Heavy duty double clevis, handle for pushing by hand and galv drawbar so no rusting, also can have ATV coupling attachment

UV stabilized bin & chassis - 1.27m x 0.95m x 0.35m (external bin)

Pneumatic turf tyres- 15x600x6 4ply with low speed Ø20 bearings

Very strong, robust, UV stabilized chassis with a galv axle and all zinc plated hardware.

KA18

BIGGER, FASTER, STRONGER!

Need more capacity and multipurpose?

The KA18 will solve all your problems and will give you benefits all in one package. Like the KA10 the KA18 has been manufactured to very high standards with quality not many can match. It is very strong, robust and fully UV stabilised so can handle all the conditions Mother Nature happens to throw at it. With a bigger capacity of 18 cu-ft and few different features like the extra toolbox and high speed bearings this kart has it all plus more!

Solve all your problems and gain more benefits with the KA18
