WELCOME

to the Smart Silo Range

The SMARTSILO brand is a range of rotationally moulded plastic silos that revolutionize feed storage.

SMARTSILO brings you tough, durable, smooth flowing, easy cleaning silos that never rust and stay looking tidy for years.

The concept of plastic silos was originated between NZ farmers and rotational moulding engineers to produce a longer lasting, hygienic storage solution.

The silos have been tried and proven and have been recognized as the ultimate storage solution as customers benefit from the advantages of plastic construction, like increased insulation which decreases condensation and also the quick easy assembly.

“ THE BEST THING SINCE SLICED BREAD ”

SILO RANGE

SS 30

- Capacity: 30,000L (23 tonne)
- Width: 3000mm
- Height: 6200mm (silo height)
- Stand-custom made height

SS 21

- Capacity: 21,000L (16 tonne)
- Width: 3000mm
- Height: 5200mm (silo height)
- Stand-custom made height

SS 14

- Capacity: 13,200L (10 tonne)
- Width: 2200mm
- Height: 4600mm (silo height)
- Stand-custom made height

SS 8.5

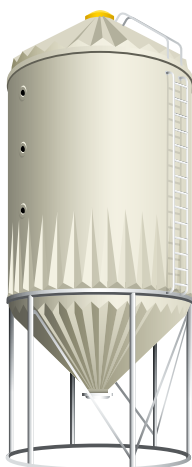

- Capacity: 8500L (6 tonne)
- Width: 2200mm
- Height: 3200mm (silo height)
- Stand-custom made height

SS 3.0

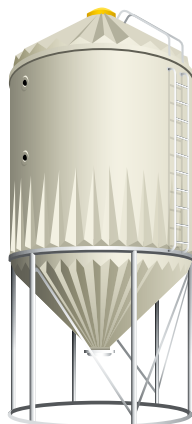

- Capacity: 3,000L (2 tonne)
- Width: 2200mm
- Height: 2100mm (silo height)
- Stand-custom made height

SS 1.6 & SS 0.6

- Capacity: 1600L & 600L
- Width: 1400mm & 1250mm
- Height: 1920mm & 1200mm

ABOUT
POLYETHYLENE

The polyethylene used also carries a healthgrade rating.

The logo for SMARTSILO features the word "SMARTSILO" in a bold, italicized, white sans-serif font. The text is set against a red, oval-shaped background that has a slight 3D effect with a white outline. Two golden wheat stalks are positioned diagonally across the oval, one near the top right and one near the bottom right.
